

**Gray's Reef  
National Marine  
Sanctuary Foundation**

**O**ur mission is to build support for and awareness of Gray's Reef as a vital ocean habitat and unique landmark for Georgia's coastal community and the nation through public programs for education and conservation.

**A *Fishy Affair*** is our signature fundraiser and sustainable seafood gala event launched in 2015. Highly acclaimed chefs from across the south have participated in our lionfish cookoff challenge to help introduce these malicious but very delicious invasive predators to local menus and markets.

We provide a focus on sustainable southern seafood and organic agriculture with place-based research to highlight the impacts on our ocean from eating locally harvested fishes and fresh produce.

**S**ponsors are needed in 2021 to support *AFA*'s move to an exciting new venue. Gray's Reef is looking forward to installing a new exhibit at the Coastal Heritage Society's STEAM Center at Tricentennial Park in Savannah. Funds raised from *A Fishy Affair* this year will support the new exhibit and Gray's Reef education programs delivered at this location.

Your sponsorship of *A Fishy Affair* will be recognized on our website, event programs, and signage at **\$5,000** or more.
